Re: Freedom of Information Act Request Number EPA-R10-2013-007967

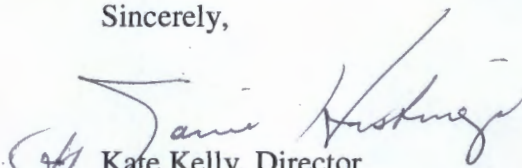

Dear Mr. Stewart

This is an interim response to your Freedom of Information Act (FOIA) request received by the U.S. Environmental Protection Agency (EPA) on June 24, 2013. You requested documents from the former Rhone-Poulenc RCRA facility file and the Lower Duwamish Waterway Superfund Site file.

Records from the Offices of Air, Waste and Toxics and Environmental Cleanup are uploaded and are available to you on your FOIAonline account. Please visit your account to download and view records.

We are continuing to collect and process the remainder of your request and will provide additional records to you as expeditiously as possible. We will follow up with a final response identifying any documents withheld. I anticipate that the final response and the set of records associated with it will be uploaded to FOIAonline by the end of February. If you have any questions regarding this FOIA request, please contact Robin Weiss, Office of Air, Waste and Toxic's FOIA liaison, at (206) 553-8577.

Sincerely,

Kate Kelly, Director
Office of Air, Waste and Toxics
